→ Recommended Motion was changed to 60 days time automatically and RFA to be send out AS-AP. by Dir. Chacon.
So Contract was extended by 60 days only.

Document showing changes to Pacifica contract after Central Basin Board voted, in then General Manager Art Aguillar's handwriting. The original vote was for "no more than 60" days and the agency was ordered to send out a new RFQ. Aguillar ordered the document to be changed to "a minimum of 60 days" and "including a consultant selection." The scan did not show Mr. Aguillar's writing so a picture was taken, hence the different contrast in colors.

Hi Mike,

I am not really set up on my website to receive donations, but if you like, you can send it to me at my home address:

David Hill
6948 Canosa Place
Rancho Cucamonga, CA 91701

Thanks so much. Anything is greatly appreciated.

I will clean up that graphic on the website. As far as who is running against me, they are not named on the website because there a total of 8 people (including me) running for 3 seats.

By the way, I realized over the weekend that Mike Camacho is Ernie's son, and that he is the Camacho that is running for the Inland Empire Utilities Agency! Since I worked there for 4 years, I know a lot about the personalities and the politics at that place. I would be happy to discuss it with Mike at any time.

Please let him know that Lauren and I have already voted for him!

Thanks Mike,

David

I just filed my papers for another run at the Board of Directors for this November for the same Board seat. I spoke to Mike Sisson about it, and he thought it would be a good idea to send you an e-mail with my request for campaign funds. Anything you can do would be very helpful and really appreciated.

Thanks so much.

Ernie,

About two ago, I ran for a seat on the Board of Directors of the Cucamonga Valley Water District. You were giving me \$250 toward the campaign. (Michael actually brought the check over to my house!) I came up short 600 votes (.05 percent of the total vote). Well, I'm at it again.

Subject: RFQ Professional Services for CBMWD

FYI –at today's non-functional Board meeting, where personal agendas have once again taken precedence over logic and advantageous steps of operating a District, Director Chacon requested (and was granted) an action item to pull the RFQ for review by *HIS* committee. This was strange because he stated the Water Resources Committee – not the engineering operations where it should be. This falls in line with a phone call I got last week from Jose who told me DelTera's last engineer Rick had quit. It looks to me like Luis panicked because he has no personnel and could not meet any of the requirements of the RFQ and negotiated with Chacon for more time and less stringent requirements. I notified CBMWD (Dave Hill) that due to this ridiculous step they must immediately move to extend our contract with sufficient funds to continue.
